## 2020-21 Victorian visa nomination program update

The Commonwealth Department of Home Affairs has provided a limited number of visa nomination places to the Victorian Government up until the Federal Budget is delivered on 6 October 2020.

We are preparing to re-open with new policies and nomination criteria to support Victoria's economic recovery and the public health response.

You may wish to prepare your Expression of Interest (EOI) so that you're ready once more information becomes available. EOIs are lodged through the Department of Home Affairs [SkillSelect](#) system.

Please ensure your EOI is up to date before you lodge an application with the Victorian Government.

Please continue to check our [website](#) for updates.
