

GOOD NEWS FOR CDCIANS!!!

We take this opportunity to congratulate the applicants who were successful with the South Australia's ROI selection process.

South Australia's state nomination process is famous to be the most discouraging and unfriendly nomination plans ever and it is becoming unpopular among agents and applicants day by day.

Breaking this myth, today we have received some ROI approvals for the following occupations and we decided to share the information as it gives an idea about how the selection process has worked on them which is still seems not that appealing towards majority of the pipelined cases . Below are the highlights of the selected profiles.

-Production Manager Manufacturing with 3-5 years of skilled, points claimable working experience with superior English level (8 in each in IELTS or 79 each in PTE academic) with 70 and 75 points from the immigration point test -491 regional sponsorship visa .

-Landscape Gardner with 8+ years of skilled points claimable working experience with Competent English(6 in each in IELTS or 50 each in PTE) with 65 points from the immigration points test - 491 regional sponsorship visa .

-The requested documents to be submitted by 27th of February 2022 by the selected candidates and this indicate that the selection process is still taking place at the SA immigration. We also can confirm that no exemption will be made for the selection criteria fixed for each of the occupations and they'll strictly follow the published guidelines and the threshold requirements to select the successful ROIs from the selection pool .

The applicants who have lodged their ROI s by themselves should constantly check their SA application portals for selection notices as you will not receive an e-mail notification once the ROI is approved for further consideration. The ROI s lodged by the CDC will be well monitored by our support team.

We at CDC assure you to deliver the best possible service to make your migration dream a reality and we can confirm that your process is with the safest hands!!!
