

16th June 2020

Dear Customer,

SOUTH AUSTRALIA STATE NOMINATION APPLICATION PRE- PREPERATIONS ARE STARTED

Hopefully , South Australia will start accepting State Nomination applications on or before 4th of July 2020 **(Any time from 12PM)** for 190 and 491 visa options **The exact date is not yet declared and we urge you to constantly monitor our FB notifications and website's immigration News blog for more details .**

As we experienced in previous years, this year also we expect a massive lodgment traffic and a competitive situation . What we experienced last year was, some occupational ceilings were met within 5 minutes to one hour time frame and those occupations got terminated instantly from the active list by denying further lodgments.

To avoid such inconveniences for both parties, this time we have decided to execute a collaborative effort with our applicants to face this challenge effectively. Therefore we decided to encourage applicants to lodge their SA nomination applications independently while the EOI lodgments will be executed by CDC on behalf of the applicants .
