

Interim allocation for SA's General Skilled and Business Migration Program

12/08/2020

The Government of South Australia has been advised of a limited number of interim allocation places for the State's General Skilled and Business Migration program for 2020/21, which will be prioritised to support South Australia's economic and public health recovery.

The full nomination allocations for 2020/21 will be determined later in the year as part of the 2020/21 Budget process.

Given the limited number of available nominations, South Australia's program requirements and application processes for the General Skilled and Business programs are currently being finalised, with a view to applications being open in late August 2020.
