VETASSESS NEWS LETTER-11th FEBRUARY 2019

General Professional Occupations - Employment Date

VETASSESS currently uses only month and year to calculate the employment dates. As of 14 February 2019, we will be considering the exact date, including day, month and year for the Date Deemed Skilled to align with the Department of Home Affairs requirement for the date an applicant's employment is considered 'skilled'.

Please note that we will continue to retrieve these dates from official documents only. Supporting employment documentation can include payslips, tax returns, and a statement of service from your employer clearly indicating the exact period of employment and if applicable, any period of unpaid leave.

Employment outside Ten Years

Please be advised that as of 14 February 2019, VETASSESS may be able to consider closely related employment outside the last ten years, provided it is continuous employment with the same employer within the last ten years.
